PARTNER A

Describe the vocabulary words with your partner WITHOUT saying the word...

Directions:

1. Pick a partner. Decide who is partner A and who is partner B.
2. Partner A looks at the vocabulary words on their sheet. **Do not let Partner B see the words!** Partner A must describe the word **without saying the word** itself to their partner, so that Partner B can guess the correct vocabulary word. For example: if vocabulary word #1 is “bald.” How could you describe “bald” without using the word? *Someone who doesn’t have any hair.* And your partner would guess “bald?” Once your partner guesses the word correctly, move on to the next word.

2. To stand someone up (on a date)
