**Situation:** *Luis Humberto is from Lima, Peru. He has just inherited a large sum of money from a rich grandfather who has recently passed away. You want him to come to your country. You can persuade him to come as a tourist or future resident. Maybe he will want to come to your country because it is very beautiful or fun or because there are a lot of*

*opportunities to create new jobs.*

*You will need to give Luis Humberto the information marked in red below. You can present it as a pamphlet, newspaper, magazine, etc. You can present it in a Google Doc or Google Slides. The problem is that you will have to work with the form of government that your country has. Also, you can only chat to communicate. The CIA (your instructor) will be able to read your messages. If you begin to talk or chat in English, the CIA can give your secrets to another country.*

*Luis Humberto is going to be in class on **[list date here]**. Good luck.*

# Spain

*You have a **parliamentary monarchy**. The king/queen can choose first which job he/she wants to do and edit (from the numbers 1 to 5). After, the king will choose a president. The president will decide what the other members of the group will do and edit. After the work is divided, you may begin looking for and adding the information that you need that is marked in red.*
