Portal Handout

You have 1-2 hours to explore a community individually.

In order to give you some direction, explore the community using the *Ingress* app. Your goal is to complete the mission assigned by your teacher. Make sure to talk to someone who speaks the target language in the area regarding the portals that you visit. You must take video or audio recordings of these discussions.

Keep notes of what you see and discuss below.

Name of portal and location	Cultural artifact(s) discovered	Notes from the interview
