

Sustainability

I. What do you think of when you hear the word sustainable?

II. Video: <https://www.youtube.com/watch?v=5r4loXPx8>

1. What does Peter do to live a sustainable life? Circle all that you hear:

- a. carpools with his coworkers b. walks to work c. his lights use green electricity
d. rides to work on a bike e. buys organic produce

2. What are the three pillars of the three pillar model of sustainability?

- a. 1.
b. 2.
c. 3.

3. For the 1st pillar, what types of things are included? Circle all you hear:

- a. Climate protection b. protect petrol companies c. biodiversity
d. organically grown food e. use up natural resources f. create environmentally friendly cars
g. protection of resources h. stop using pesticides

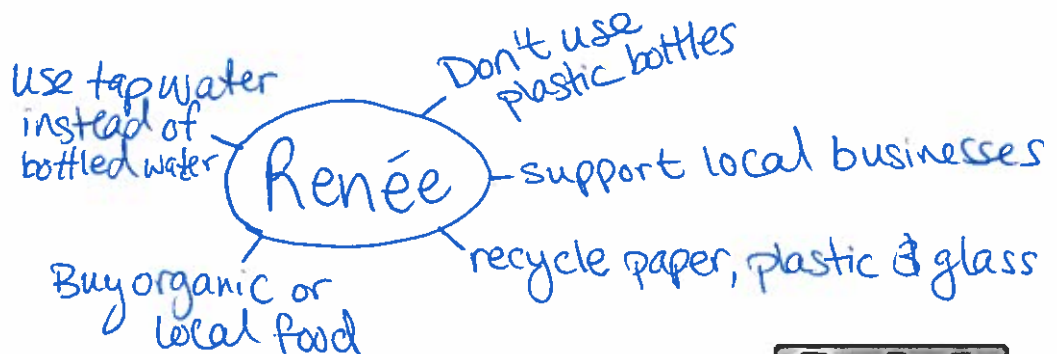

4. At the supermarket, Peter should only find produce that's _____.

5. List two things the 3rd pillar includes:

Example: Prosperity for all humankind

1.
2.

III. What do YOU do to live a sustainable life?

What responsibility do we have?

IV. Some people think that the environment, global warming, and sustainable living is not their problem. Why should they change the way they are living? Other people think that because the environment, global warming and sustainability affect the whole planet, that we all have a **moral responsibility** to help make the world a better place.

1. What does “moral responsibility” mean to you?

V. Video: <http://study.com/academy/lesson/environmental-ethics-human-values-definition-impact-on-environmental-problems.html>

1. The video stresses the fact that what happens on one side of the world can affect the other side of the world. TRUE / FALSE

2. Human values affect what humans believe to be “moral.” What examples does the video give?

VI. Discussion/Debate: Do we have a moral responsibility to protect the environment and why?

1. Brainstorm with a partner and come up with reasons for BOTH sides.

Yes, we do have a moral obligation.

No, we don't have one.

Reason:	Reason:
1.	1.
2.	2.
3.	3.
4.	4.
5.	5.
