

ChronoOps Worksheet

You went back in time to find examples of “green” technology around the Portland State University campus. As you play *ChronoOps*, you will travel to 5 different places and interact with each area by making a video in ARIS. Use this worksheet as a way to keep track of everything you do while playing *ChronoOps*!

A. Go to each of the **locations** that you encounter in the game, write down the **question** that you are asked, and **answer** the question you are given. Don’t forget to use the **forms** you learned last class for giving opinions or arguments (“*I believe...*” “*In my opinion...*” “*In my view...*” etc.).

B. Once you have answered the question from the game to the best of your ability, **record** your response in ChronoOps as you complete each section. If you need help, touch “How to play” on the world map.
