- B) Work in groups of 3-4 students and present the neighborhood you chose to the group. The rest of the group members listen and take notes, ask questions at the end of the presentation if needed.
- C) After everyone presents, decide as a group which neighborhood is worth exploring and finding an Airbnb to stay. When you decide, present it to the whole class.
- D) At the end of each groups presentation, discuss together:
- What are some of the common characteristics of these neighborhoods, what differences do you notice?
 - Compare them to the neighborhoods in your own cities. Do you see some similarities and differences?
 - What types of neighborhoods do you prefer in general? Why?

PART 2 [AirBnb](#)

You and your friends have decided to go on a one-week holiday in Rome. Find a place to stay through Airbnb in the neighborhood you chose as a group and prepare to present it to your friends (PPT, Keynote, Prezi, poster using many images and key information about the place*) and try to convince them why the place you found would be ideal for your group. After each one in the group presents, decide on one of the Airbnb facilities and present your choice to the class.

*Collecting key info about the place: Click on filters to specify your preferences.

The image shows the Airbnb search filters interface. It includes sections for Date (Check-in, Check-out, 1 ospite), Tipo di stanza (Alloggio intero, Stanza privata, Stanza condivisa), Fascia di prezzo (price range from \$10 to \$1,000+ with a median of \$93), Prenotazione Immediata (switched off), Dimensioni (Camere, Bagni, Letti), and Opzioni (Superhost, Soggiorna con host esperti).
