

Novice Activity

Give One, Get One

Instructions: First, find one category and write something that you think has African origins that is used in Latino communities. Then, walk around the classroom and ask your classmates what words they have listed. You will provide them with one word from your table in exchange for the word that they give you. You may offer any word that you have written on your sheet - not just the one that you originally wrote.

African Influences in Latino Communities

Food	Art	Music	Fashion
Example: plantains
