

Novice Activity

Portal Documentation Sheet

As you play *Ingress*, you will hunt for the items that you need to throw your authentic Afro-Latino party. Document the portals that you defend and hack below along with the items that you find. Remember, you must find items to plan your party that belong to the following categories: food, decorations (art), entertainment, and dress. Also, indicate any new items that you find that were not on your original predictions list that could have African influences.

| Portal | Item(s) |
|--------|---------|
