

==Passing Notes==

Instructions: In your target language, write a kind or generous note to someone you are grateful for.

Fold on the dashed lines to turn this sheet of paper into a greeting card. Consider brainstorming or doodling to generate ideas that you might want to write about. Whenever you're ready, go ahead and write your message in your target language. Add visuals as necessary to get your message across.

Can you think through and execute the entire process in your target language?

Extension: Give the card to it's intended audience (translate if necessary). #gratitudeiscontagious
