

## Creating Solutions to Moral Dilemmas in *Quandary*

### Related Objectives:

- Understand basic instructions for playing a video game.
- Demonstrate understanding of how to form statements and suggestions
- Share and justify your own opinion on common issues.
- Exchange information about the community and points of interest.
- Use comparative language to make choices

### Instructions:

As you play *Quandary*, fill in the following tables. You will go through this worksheet four times, once for each chapter.

### Step 1: Getting Your Facts Straight

When you arrive at the section titled “Getting Your Facts Straight,” pay attention to how facts, opinions, and solutions are phrased differently. Fill out the table below with one example of each type from each chapter.

|           | Fact | Solution | Other Opinion |
|-----------|------|----------|---------------|
| Chapter 1 |      |          |               |
| Chapter 2 |      |          |               |
| Chapter 3 |      |          |               |
| Chapter 4 |      |          |               |

Observations:

1. After filling in your examples from Chapter 1: what do you notice about differences in each sentence type? (Hint: look at what verbs/tense is used, where the nouns, verbs, and objects are placed in the sentence, etc.) Jot your observations here:

2. Once you've completed all four chapters: Did your initial observations hold true? Use the sentence structures that you have observed to create sentences of your own that relate to the issue of littering. Create one of each type:

Ex: Solution--We should be fined more harshly for littering.  
 Fact--Littering is a serious problem in our town.  
 Other--I am worried about my dog eating trash.

1.

2.

3.

### Step 2: Solution Selection

Once you have sorted all of the cards, you will be asked to select two of the four proposed solutions. With a partner, discuss which solutions are best. Use comparative phrasing to compare and contrast the solutions (ex: solution x is more/less/equally \_\_ <adjective> \_\_ as solution y. Solution X is the best/worst because \_\_\_\_\_. Solution Y is no better than Solution Z because \_\_\_\_\_). You should support your conversation using information given to you by the colonists. Fill in the table below for each chapter.

|           | Solution 1 | Solution 2 |
|-----------|------------|------------|
| Chapter 1 | Solution:  | Solution:  |
|           | Why:       | Why:       |

|           |           |           |
|-----------|-----------|-----------|
| Chapter 2 | Solution: | Solution: |
|           | Why:      | Why:      |
| Chapter 3 | Solution: | Solution: |
|           | Why:      | Why:      |
| Chapter 4 | Solution: | Solution: |
|           | Why:      | Why:      |

### Step 3: Colonist's Opinions

As you present your solutions to each colonist, write down their opinion on the matter and whether you think that they agree or disagree with each solution.

#### CHAPTER 1:

| Colonist        | Opinion on Solution 1 | Opinion on Solution 2 |
|-----------------|-----------------------|-----------------------|
| Bryn: Hunter    |                       |                       |
|                 | Agree or Disagree     | Agree or Disagree     |
| Guthrie: Herder |                       |                       |
|                 | Agree or Disagree     | Agree or Disagree     |
| Yau: Historian  |                       |                       |
|                 | Agree or Disagree     | Agree or Disagree     |

|                            |                   |                   |
|----------------------------|-------------------|-------------------|
| Dale: Security Officer     |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Rose: Metalworker          |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Landon: Tailor             |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Paskit: Computer Expert    |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Manford: Farmer            |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Granik: Construction Chief |                   |                   |
|                            |                   |                   |

|                   |                   |                   |
|-------------------|-------------------|-------------------|
|                   | Agree or Disagree | Agree or Disagree |
| Dr. Canon: Doctor |                   |                   |
|                   | Agree or Disagree | Agree or Disagree |
| Mae: Biologist    |                   |                   |
|                   | Agree or Disagree | Agree or Disagree |
| Bazzil: Engineer  |                   |                   |
|                   | Agree or Disagree | Agree or Disagree |

CHAPTER 2:

| Colonist        | Opinion on Solution 1 | Opinion on Solution 2 |
|-----------------|-----------------------|-----------------------|
| Bryn: Hunter    |                       |                       |
|                 | Agree or Disagree     | Agree or Disagree     |
| Guthrie: Herder |                       |                       |

|                         |                   |                   |
|-------------------------|-------------------|-------------------|
|                         | Agree or Disagree | Agree or Disagree |
| Yau: Historian          |                   |                   |
|                         | Agree or Disagree | Agree or Disagree |
| Dale: Security Officer  |                   |                   |
|                         | Agree or Disagree | Agree or Disagree |
| Rose: Metalworker       |                   |                   |
|                         | Agree or Disagree | Agree or Disagree |
| Landon: Tailor          |                   |                   |
|                         | Agree or Disagree | Agree or Disagree |
| Paskit: Computer Expert |                   |                   |
|                         | Agree or Disagree | Agree or Disagree |
| Manford: Farmer         |                   |                   |

|                            |                   |                   |
|----------------------------|-------------------|-------------------|
|                            |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Granik: Construction Chief |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Dr. Canon: Doctor          |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Mae: Biologist             |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Bazzil: Engineer           |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |

CHAPTER 3:

| Colonist | Opinion on Solution 1 | Opinion on Solution 2 |
|----------|-----------------------|-----------------------|
|----------|-----------------------|-----------------------|

|                        |                   |                   |
|------------------------|-------------------|-------------------|
| Bryn: Hunter           |                   |                   |
|                        | Agree or Disagree | Agree or Disagree |
| Guthrie: Herder        |                   |                   |
|                        | Agree or Disagree | Agree or Disagree |
| Yau: Historian         |                   |                   |
|                        | Agree or Disagree | Agree or Disagree |
| Dale: Security Officer |                   |                   |
|                        | Agree or Disagree | Agree or Disagree |
| Rose: Metalworker      |                   |                   |
|                        | Agree or Disagree | Agree or Disagree |
| Landon: Tailor         |                   |                   |

|                            |                   |                   |
|----------------------------|-------------------|-------------------|
|                            | Agree or Disagree | Agree or Disagree |
| Paskit: Computer Expert    |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Manford: Farmer            |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Granik: Construction Chief |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Dr. Canon: Doctor          |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Mae: Biologist             |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Bazzil: Engineer           |                   |                   |

|  |                   |                   |
|--|-------------------|-------------------|
|  |                   |                   |
|  | Agree or Disagree | Agree or Disagree |

CHAPTER 4:

| Colonist               | Opinion on Solution 1 | Opinion on Solution 2 |
|------------------------|-----------------------|-----------------------|
| Bryn: Hunter           |                       |                       |
|                        | Agree or Disagree     | Agree or Disagree     |
| Herb: Teacher          |                       |                       |
|                        | Agree or Disagree     | Agree or Disagree     |
| Yau: Historian         |                       |                       |
|                        | Agree or Disagree     | Agree or Disagree     |
| Dale: Security Officer |                       |                       |
|                        | Agree or Disagree     | Agree or Disagree     |

|                            |                   |                   |
|----------------------------|-------------------|-------------------|
| Cornelia: Chef             |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Landon: Tailor             |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Paskit: Computer Expert    |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Manford: Farmer            |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Granik: Construction Chief |                   |                   |
|                            | Agree or Disagree | Agree or Disagree |
| Dr. Canon: Doctor          |                   |                   |
|                            |                   |                   |

|                  |                   |                   |
|------------------|-------------------|-------------------|
|                  | Agree or Disagree | Agree or Disagree |
| Mae: Biologist   |                   |                   |
|                  | Agree or Disagree | Agree or Disagree |
| Bazzil: Engineer |                   |                   |
|                  | Agree or Disagree | Agree or Disagree |

#### Step 4: Final Solution

Identify which solution you select in the end. Justify your selection and also record the Council's ultimate decision.

|           | Solution | Why you chose it | Council's decision |
|-----------|----------|------------------|--------------------|
| Chapter 1 |          |                  |                    |
| Chapter 2 |          |                  |                    |
| Chapter 3 |          |                  |                    |
| Chapter 4 |          |                  |                    |
