   o Why does your audience need to know about your current event?

- What is the event about?

- Who are involved in the event? What are their roles?

- When and Where does it take place? Does the time or the location matter?

- Why does this event attract your attention? OR How might this event attract your audience's attention?

- What is your prediction for the impact of your current event to the future?

- What do you learn from the event that you were not aware of before?

Step 2: Decide if you present the information in texts or visuals or a combination of text and visuals. Fill in the table below with details:
