

## **Refreshing Your Curriculum: Vocabulary Supplement Handout**

## Your Choice of Current Event:

|  |  | Words | associated | with | technolog | gy and | innovation | from | our cha | pte | er: |
|--|--|-------|------------|------|-----------|--------|------------|------|---------|-----|-----|
|--|--|-------|------------|------|-----------|--------|------------|------|---------|-----|-----|

| advancement | wireless | inspiration | breakthrough |
|-------------|----------|-------------|--------------|
| automated   | research | improve     | influential  |

Instructions: Think of what words you will need to discuss your current event and make predictions for the future.

1. List <u>at least</u> 3 things in each column:

| Words you know | Words you neeed* |
|----------------|------------------|
|                |                  |
| -              | -                |
|                |                  |
| -              | -                |
|                |                  |
|                |                  |
| -              | -                |
|                |                  |

<sup>\*</sup> You may draw images or write the words in your native language.

2. What are key terms you will use to search for information of your current event? Remember that they are in the target language. Make sure you know them!

3. As you research: List some of the new words that you are acquiring.

| Word and example in context              | Definition (in target language) or drawing |
|--|--|
| Example: The technology works in         | Secure means that the technology is safe   |
| almost all conditions, and research has  | and that it protects your personal         |
| shown it to be extremely <b>secure</b> . | information                                |
|  |  |
