

Enhancing Quality by Focusing on Process

The assignment up for revision:

Time-interval:

How much time has passed since you completed this assignment?

About your Choice:

Why did you choose this assignment? What do you like about it? Why do you think it's worthy of more time & effort?

Growth:

What quality improvements can you identify? In other words, what shortcomings or mistakes do you now see as a result of the growth you've experienced since your last attempt on this assignment?

Intention:

What effect do you want to create as a result of your revisions?

Improvements:

What do you plan to do to improve the quality of the piece (e.g. physical changes, media, language revision, scale)? If you get stuck, who can help you? How much time are you willing to devote to the process?

Play:

Attempt to approach the revision process more playfully than the first time through. Playfully expand your sense of what is possible with the final outcome. Enjoy yourself!

Extension: *After you've completed the assignment, who can you share it with? In other words, how can you get more mileage out of this work? (e.g. post it online, share with an expert speaker, share with a past teacher, share with a friend, etc.)*
