

Gameplay Log

Game: _____

What is your goal for playing this game in terms of language learning? Watch this video for some ideas.

In the template below, document your gameplay. Take screen shots related to your goal as you play and write a brief analysis of the screen shot. You may want to explain how the imagery is helping you understand a target word, or you may be looking for a specific function (like greetings) in context. Make sure to play for about 15-30 minutes a day over the week.

There is no requirement in terms of quantity of screen shots, but you should have enough to demonstrate progress towards your goal. The template has space for nine, but feel free to add more.

Date	Screen Shot	Analysis

Reflection:

How has gameplay helped you progress toward your goal?

Is the game an adequate resource? Do you want another one (or two)?

Do you want to update your goal? Try a different game? Explain briefly.
